# What's Bugging the Mountain?

## Maunakea's Alpine and Subalpine Insects

### *After Dark In the Park*

Tuesday, July 12th at 7 p.m.

In the Kīlauea Visitor Center Auditorium

The alpine and subalpine environments on Maunakea support a unique diversity of native and endemic insects. Join Heather Stever and Jessica Kirkpatrick as they present their thesis research on the diversity of insects on different plant types in the subalpine community, and the distributions of wēkiu bugs on cinder cones in the alpine stone desert.
